

VERIFICATION STATEMENT

1. On March 18, 2015, TestAmerica Laboratories, Inc. ("Lab") received one sample(s) of a proprietary solvent from Green River Resources, Inc. and American Sands Energy Corporation (collectively the "Companies").

2. On April 6, 2015, Lab completed an analysis of the constituents present in the samples (referred to as the "analysis").

3. Lab has compared the results of the analysis with the proposed list of constituents relative to project-related surface water sampling, which list is attached.

4. Lab has utilized analytical methods in conformance with the requirements of Utah Admin. R317-6-6.3.L and/or 40 CFR Part 136 ("analytical methods") and is certified by the State of Utah to conduct the analysis for all the identified constituents.

5. The analysis was conducted consistent with all corresponding holding times and other procedures identified in the analytical methods.

6. The results of the analysis confirmed that all constituents identified in the analysis (i.e., in the proprietary solvent) are included on the constituent list attached.

I certify that I am personally familiar with the information submitted to support this statement and that the information was obtained in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for the analysis, the information submitted is, to the best of my knowledge and belief, true, accurate and complete.

List of Constituents

Ethanol
Propanol
1,3-Dichloropropane
Butane
Ethyl benzene
Hexane(s)
Isopentane
Isopropyl alcohol
Methyl t-butyl ether
n-Propylbromide
Pentane
Benzoic Acid
